Dear Harold,

Your mailings of 1/18, 25, and 29 received. Many thanks.

I received the 16 page autopsy study (only) from the Justice Dept. I look forward to seeing your analysis. I am [redacted] inclined to believe that the 100 mm. above the occipital protruberance for the head wound is not a typographical error. (Actually, such a position is more consistent with a shot from the TSBD!)

Enclosed, as requested: SS statement on X-rays and photos (clearest copy possible); clipping from NYT, 11/2/66, same subject.

I remind you that I can do the copying on any of Gary's archives documents for which you have a list and are willing to trust the mails.

No time to write [redacted] more. Curiouser and curiouser,

Sincerely,

Paul
